Foundations of Reading Test (FoRT) Alternate Option

Our Goal:

Candidates will acquire and demonstrate the competencies assessed on the Foundations of Reading Test (FoRT) and will be prepared to effectively teach reading to a wide range of students in K-12.

- Students may apply after August 1, 2024. We will reach out to you in September to begin the process.
- Affordable cost of $975.
- Please note that this option is only available for Special Education candidates as a replacement to the FoRT.
- This program is designed to take approximately 6-9 months to complete.
- Candidates are required to work with students in K-3 and 4-12 grade bands and demonstrate proficiency with both.
- Assignments must be taught to actual students.
- The program consists of three parts: coursework & assignment, coaching & mentoring, and a final portfolio & exit interview.
